About Us

Established in 2006, Signware Systems is an integral partner for many UK retailers for their shopfitting requirements. Our aim is to ensure the end user gets reliable, quality products that enhance their ideas and compliment their displays and fixtures.

Our in-house research team, along with our partners across Europe and Asia manufacture, source and deliver, extraordinary products working in collaboration with you, our customer, and ensuring reliable and on time customer service.

The partnerships with our clients have developed to the point where Signware Systems is the first point of contact for innovative retail solution for all their business needs.

Working with metal, wood and plastic fabrication, we undertake many projects and challenges based on customer needs within their time and budget constraints. By offering bespoke services ranging from trouble shooting; design and manufacture, we achieve delivery of the products and solution on time and at the right price!

Signware Systems provides a range of products and services to major UK retailers in the following areas:

- Retail shelving and modular shelving systems
- Design tile flooring for retail outfits, industrial and commercial use
- Retail display systems and merchandising accessories
- Bespoke solutions for retail and commercial equipment

Some of our clients we work with are:

Special Projects

Signware Systems range of experience and network of partners enables us to tailor make and deliver special projects to customer's requirements. Starting from an idea to troubleshooting, leading to prototype and manufacturing to final roll out of multi store fit outs, the signware team will enable you to realise the outcome.

Signware Systems can tailor make and produce to the unique requirements of each customer by considering all variables from time constraints, cost implications to environmental concerns. Supported by our experienced in-house team with a network of manufacturing facilities in Europe and the Far East combined with global procurement experience, we will work closely with you through the life cycle of the project to delivery. We pride ourselves on each project to deliver the customers vision with long term durability and cost-effective benefits.

Our specialist network of manufacturing and procurement includes:
 Metal Work Fabrication
 Timber Solutions and Manufacturing
 Plastic and Acrylic Fabrication
 Merchandising and Display System Solutions

Signware Systems will develop your business ideas by forming a true partnership with its clients to establish a shared vision of the result and strive to fulfill that vision.

SCHOOLS &
OFFICES

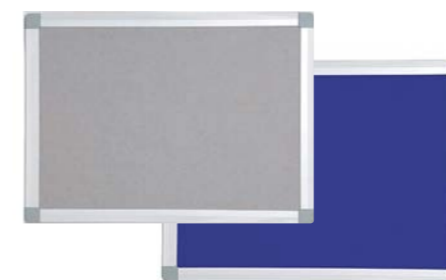

Felt Pin Board

Our felt pin board is a notice board with a velcro background and a silver frame. This board is great for displaying messages or promoting information and are available in two sizes, 60x90cm and 90x120cm in two colours, blue and grey.

Key Features:

- Quick and easy notice change
- Ideal for fast moving retail and office environments
- Felt backing, suitable for velcro and pins

Product Code: FPB

Colours Available	Sizes Available	
Blue Grey	60x90 (cm)	90x120 (cm)

Aluminum Textile Frames

Aluminum **Textile Frames** are modern, attractive and are easy to use. The frames are ideal for advertising and easy and quick to change graphics. The aluminum **textile frame** can be mounted quickly and easily and are available in various models as well as illuminated and non illuminated versions.

Key Features:

- Available in either silver anodised or powder coated finish
- No tools required to change graphics
- Vibrant, hi-resolution graphics printed on textiles
- Dimmable, low voltage LED option available on some models
- Double sided units can be pole mounted (floor to ceiling) or free standing (bolted for safety)

Retro Fit Texsign Profile

This profile can just as easily change an existing, vinyl decorated, acrylic faced lightbox into a vibrant, colourful soft graphic system. Why not turn a dark recess or a window frame into a useable advertising space? The retro fit design profile allows fabric to be mounted on existing traditional units.

24mm Texsign Frame

This profile can simply be used as a standard, non-illuminated graphic display system with no backing. Alternatively used for hiding unsightly brickwork or save the cost of plaster-boarding. Units can be illuminated with a LED light sheet as a backing if required.

60mm Texsign Frame

The ultimate profile to suit many environments using dimmable LED's to enable you to balance the light level according to the detail on the print and the surroundings. This model has a slim profile and supplied with 3mm hoarding backing.

Other Profiles available:

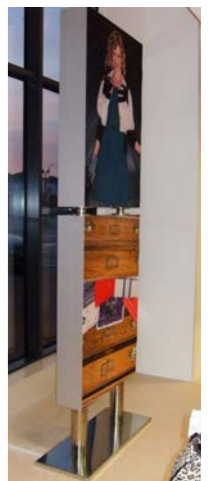

Retro fit 120mm profile with dimmable LED's, benefiting from an acrylic or voile diffuser (depending on lighting option). Take an old slimline light box and re-work using our 120mm texsign profile to create a fabric frame.

170mm economy Texsign profile is a deeper profile without dimmable lighting and the backlighting is achieved through standard fused gear trays, but opal polycarbonate is used as a diffuser and to ensure operator safety.

180mm double sided Texsign profile can be post mounted, free standing or stand alone. This product looks great in any format. Using the same lighting options as the 120mm texsign box, it is great either in a shop window or as part of a dividing wall concept. One price, twice the advertising space!

FRAME
YOUR
VISION

Light Box

The light boxes vary from LED to backlit light box for illuminating signs to help display your company logo or products and promotions. The light boxes are available in a range of sizes and in various colours.

The profile of all the models allows for a clean and professional look to illuminate your graphics whether it is Indoor or outdoor, creating a powerful marketing tool with cost effective benefits.

Static marketing through bright light, attracts customers attention by creating a visually more attractive advertisement. Benefit to using light boxes is the option to run the advertisement throughout the day or night. Illuminate and showcase your company or products with our state of the art light boxes for all your surroundings.

Smart LED Lightbox

The Smart LED light box can be single or double sided and uses a snap frame mechanism making it easy to change the graphics. This efficient light box saves up to 60% of energy cost and only requires a low voltage to operate, it also comes with an on and off switch built in for easy indoor use.

Double sided not available in A0

Key Features:

- Bright Led light marketing to catch customers attention
- Popular with cosmetics and leisure industry
- Double sided available on request to allow a two-way advertising for your product
- Can be mounted on high ceilings or windows

Single Sided **Double Sided**

Product Code: SLED-S Product Code: SLED-D

Convex Lightbox

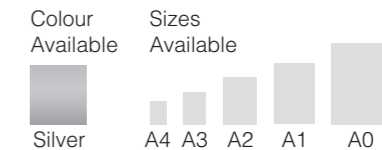

For a more stylish and unique look, our attractive convex lightbox is a single-sided display unit for internal wall mounting. Supplied with a tube lighting to provide an even illumination across the convex surface and has a clip frame feature to make it easier to change and display graphics.

Key Features:

- Anti-glare PET poster cover included to protect your marketing
- Ideal for fashion and cosmetic retailers
- Futuristic convex shape adds extra dimension to graphics
- Best size and shapes for around pillars as an ideal marketing tool

Product Code: CLB

Product Code: EXTLB

External Lightbox

Our 'External light box' is weather resistant and watertight so ideal for outdoor use. The frames are strong and secure, making it vandal resistant. Using LED technology to save energy, the bright illumination makes graphic or sign applications such as: shop fascia signs, outdoor advertising posters, restaurant menus and other promotional signage highly visible and eye catching. (Please call with your specification and mounting options for pricing).

Key Features:

- Outdoor illuminated advertising marketing tool
- Saves energy cost compared to fluorescent technology on LED versions
- Large models and deep profile available, please enquire

Pavement and Forecourt Signs

- Built for durability and outdoor conditions, these boards are very stable, easy to operate and to change graphics
- Outdoor signs are portable, attract passing pedestrians and motorists, very lightweight and easy to move and store
- Modern and attractive design ideal for most business styles and an excellent marketing tool
- Pavement signs have locking side arms for stability
- A Boards have steel frames, galvanised steel back panel and standard UV anti-glare PET front cover
- Tubular A Boards are supplied with a UV anti-glare PET magnetic front cover
- Forecourt signs and Waterbase signs are a unique poster display unit for areas of increased footfall

The double-sided A Board units operate with easy to use poster changing features. The steel frames, steel back panels and the PET poster covers are all fully recyclable. Ideal for outdoor promotion in high traffic areas and are a cost-effective advertising tool.

With all our A Boards and Tubular A Boards it is advised that your poster display or literature for these boards are on a water resistant based paper or PVC type material, to best protect them from sustained weather conditions. In adverse conditions, it is recommended to move your sign units to a more covered area to protect from long term damage.

Modular Information Stands

Modular brochure stands are a robust free-standing information board. Unique and clever design to display and dispense your promotional materials around your business or use for events, exhibitions and in travel agents. Many combinations are possible by adding to the pole and base, from Banner Arms, Angled Dispenser, Steel Shelves, Side Arm Dispensers, Snap Frames and Slide-in Frames. The Modular information stand is supplied and sold in variable components allowing the businesses to cater their promotions to suit the environment.

Free standing brochure stands have the snap frame mechanism for displaying posters whilst the attachable literature shelf can be used to dispense leaflets, brochures or company information. With the single or double-sided capabilities, the information display board can be used in many environments. The stands are ideal for travel agents and the leisure industries where promotional change is frequent.

Our stands are versatile and can be modelled to display various graphics, just brochures or both at the same time.

Order online www.signwaresystems.co.uk

Modular Stand Pole and Base

The stands pole and base are manufactured with silver anodised aluminium in either 2 or 4 channel options allowing the customer to choose how they want to display or promote information. The 2 base channel allows for front and back display only. The 4 ways channel allows the customer the flexibility to use different angles for the promotions.

Key Features:

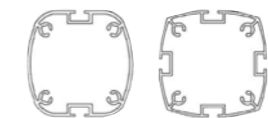

- Easy to assemble components to maximise the use of the stand
- Heavy and stable base for high traffic areas and indoor use only
- Each shelf has a capacity of 2 x A4
- Design your own variation

Reel EZ Display System

Exclusive to Signware Systems, our Reel EZ Display system provides a safe, retractable ceiling sign hanging system to many establishments across the Europe and USA. The award winning one component sign hanging systems for all in-store signage is designed and patented in USA.

In line with Health & Safety regulation, the Reel EZ display unit allows one person to change signage from the floor to ceiling at a desired height without the aid of a ladder by using the Reel EZ telescoping pole.

Empower your store staff and work colleagues for promotional change without incurring high cost of using contractors.

Reel EZ Unit

Retractable sign hanging unit, easily attaches to most suspended ceiling tracks. Pre-assembled with hanging hooks and self-levelling bar, the unit can carry sign weight of up to 5lb and 36" wide on a single unit. For wider and heavier signage, we recommend using multiple units.

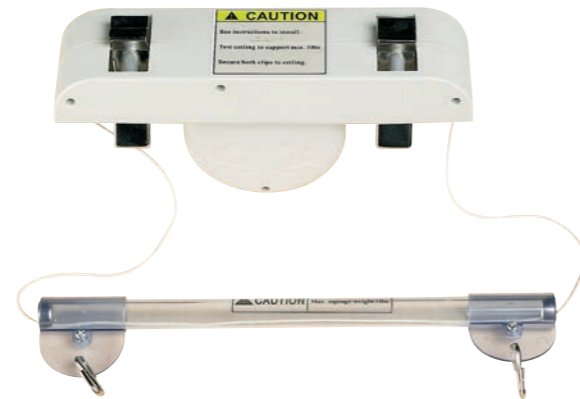

Colour Available
Cream

Size Available
5lb

Key Features:

- Allows easy POS change with retractable feature
- Self levelling bar ensures signs always hang level
- Adjustable stopper allows for variation in heights
- Can be attached directly to grid ceilings or any type ceiling with our adaptors
- Can be used with poster holders (sold separately)

Product Code: RZ

Reel EZ Accessories

The Reel EZ accessories compliment the unit in attaching to most ceiling types. Manufactured to provide the Reel EZ unit with a base to attach to, these components can be used in ceiling types such as open beam, shopping malls and traditional type ceilings. They provide the ideal components to maximise open spaces for sign hanging and promotion.

Reel EZ Pole

To use with Reel EZ unit, telescoping to heights of up to 3 meters, the pole is lightweight and easy to use to bring the sign down from high ceilings. Fully adjustable to reach higher ceiling, they also work as a stopper when changing signs on the unit to minimise retraction without the sign.

Product Code: RZPL

Colour Available
Silver

Reel EZ Cable Adaptor

The adaptor is a U Clamp unit which is suspended from cables at mid height to act as a platform for the Reel EZ unit to attach to. Specially created for very high ceilings, this attachment allows the cable to be dropped up to 8 meters from the top of the ceiling for the easy fixing of the unit at workable level for store personnel.

Product Code: RZCA

Colour Available
White

Reel EZ Swivel Adaptor

Allows the unit to be flexible in directional sign suspension. Clips onto most suspended ceiling struts as well as our ceiling track (sold separately).

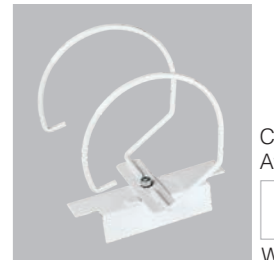

Colour Available
White

Product Code: RZSW

Reel EZ Open Beam Adaptor

Offers the flexibility of using on square or round beams for sign suspension: The adaptor attaches to the beams creating a base for the Reel EZ unit to attach to the clamp on the adaptor.

Colour Available
White

Product Code: RZOBC

Ceiling Track

These are ideal for anchoring points for the Reel EZ to be clipped where grid ceiling is non-existent. (To be purchased separately, see Accessories page 70).

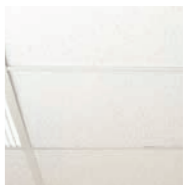

Colour Available
White

Product Code: TT48

Cross Beam

The cross beam adaptors enables mid track Reel EZ hanging and graphics to be positioned where desired. (See Accessories page 70 for more detail).

Product Code: CB24

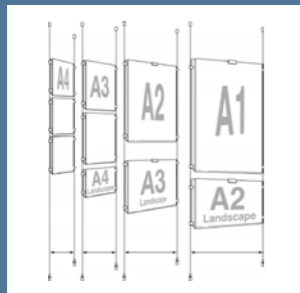

LADDER-LESS SIGN HANGING

Cable Systems

The cable systems are modern, unique and attractive display units for many environments. This allows you to make use of your floor space to create a display that is visible and clean from both inside and out.

They are easy to install and can be attached to the floor, ceiling and wall giving a professional look to any display.

- High impact area display systems for eye catching symmetrical promotions
- Unique way of displaying posters or shelves in window or rejuvenate blank walls and backdrops
- New system of cable toggle end and tracks allows you to shift the whole display without having to drill new holes
- Can be used with the vertical holders to create a product floating display unit

The cable kit is a pre-configured cable display unit to allow you to suspend poster pockets on your walls or windows. Standard cable kits are popular with estate agents, hair salon and shoe shops. These easy to install kits offer retailers large and small a quick and easy cost-effective option.

Cable kits with cable grip holders and acrylic shelves can offer dynamic shelving with cost effective benefits or a floating wall and window display.

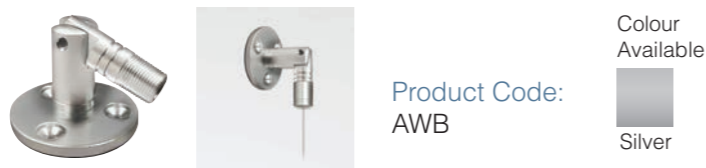

Floor to Ceiling Kit

The main component of the cable system is the floor to ceiling fixing with 4m cable and tension floor fixing. Each kit comes complete with an allen key and a set of instruction for easy fixings.

Adjustable Wall Bracket

Designed to be used with our cable system to assist your poster display against the wall. The modern designs and adjustable head of the bracket allows for desired angles and create a desirable wall display. The system can also be used with horizontal grippers and acrylic brochure shelves to create a floating brochure stand.

Order online www.signwaresystems.co.uk

Cable Grip Vertical

Our cable grips are available as a single or double grip and they are part of the cable system to hold acrylic poster panels tightly and secure. Double sided grips are unique in offering a continual promotional run.

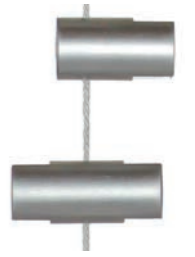

Single

Stylish and modern, small stature is great while keeping panels together but does not take away any focus and attention from your display.

Double

It has the same features as the single with added benefit of holding thicker panels and in multiple runs at the same time.

Product Code:
Single: VSG
Double: VDG

Product Code: EAPH

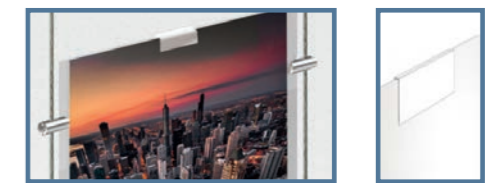

Easy Access Poster Holders

Our Easy Access Poster Holders are clear acrylic pockets to compliment the floor to ceiling cable kit. Easy to use, the poster slides in and slides out of the holder and can be used in windows or on walls. The pockets are available in various sizes and in portrait and landscape.

Easy Access Poster Clips

The Poster Clips are ideal to use with larger poster holder. They are sold in packs of 4's and must be purchased separately. The clip is available from size A2 plus and are essential to use with the poster pocket kits.

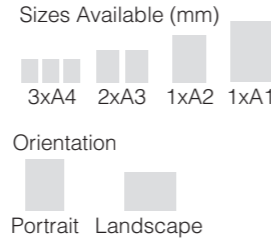

Product Code: EAPC

Cable Set Kits

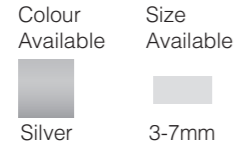

Cable poster display kits are ideal for hanging signage in windows and offers a way to market and promote your products and are used with our Easy Access Poster Holders.

Product Code:
 Ceiling to Floor Cable Set Kits: CFK
 Wall to Wall Cable Set Kits: WWK

Key Features:

- Options to use as a floor to ceiling or wall to wall cable kit
- Streamlined 4m cable has a modern silver anodised finish
- Easy to install, strong and durable cost-effective display

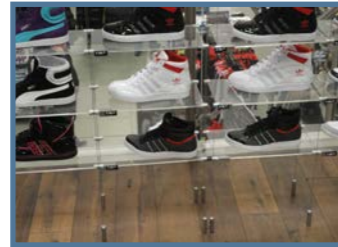

Cable Grip Horizontal

These are available in a single or double grip and used with the floor to ceiling cable kit. The grips are ideal as they grip onto the shelves and leaflet dispensers, offering a flexible and floating display unit. The double-sided grips hold onto the shelves on a continual run display unit.

Product Code:
 Single Grip: HSG Double Grip: HDG

Acrylic Shelves

The acrylic shelves can be manufactured to suit. Available in various thickness materials and tints, they can offer a flexible unique floating wall display unit. Call with sizes for pricing.

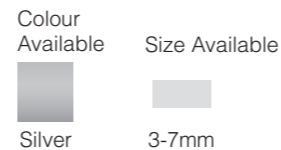

Product Code: AS

Ceiling to Sign Kit

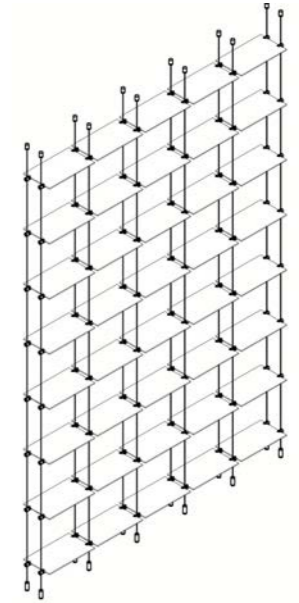

Ceiling to Sign Kit are for suspending signs from the ceiling and is ideal for window displays with limited space. To hold a sign, a minimum of two kits will be required. The bigger the size the more kits you require.

Product Code: CSK

Exclusive Cable System with Tracks

Modern and attractive floor to ceiling floating wall display system with clean and effective selling features. The track and cable toggle system are ideal for shoe retailers as well as customers who require a clean and flexible non-permanent display solution. The display unit uses the standard horizontal or vertical grippers as well as poster pockets or shelves.

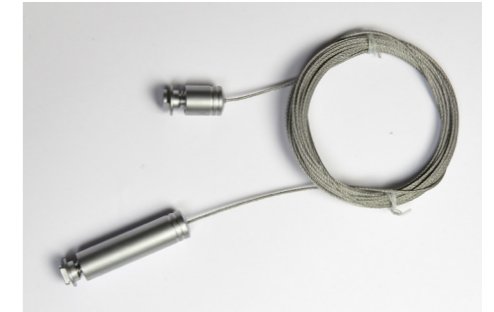

Cable Kits with Toggle Ends

Floor to ceiling cable kits with toggles fixing to be used with track system for a floating look. These cable kits allow the customers to push and move their cables along the top and bottom tracks. Easy to install and maintain, the kits are ideal where a permanent or changeable fixture is a requirement.

Product Code: CS4T

Cable Track

The track system is used for creating a floating display unit which can be easily moved and repositioned without having to re-install the cables. The tracks can be fixed on the ceiling and floor to allow easy movement of a symmetrical display along the whole window or walls.

AL2M

EXCLUSIVE TO SIGNWARE

Flooring Solutions

For your commercial, industrial or residential space get our flooring solutions today. The patent interlocking tiles offer the best industrial and retail flooring solution on the market, boasting outstanding lifetime value to leading retail brands and residential garage floors in over 20 countries worldwide. We offer the finest quality, durable interlocking solutions for all your floors.

Key Features:

- Quick and easy to install
- No damp proof membrane, screed or adhesive required
- Reduces noise and easy to clean
- Non-Slip R-10
- Easy to replace damaged tiles or areas
- Can be used to do encapsulating on asbestos floor

Manufactured interlocking design tiles deal with varied applications to include foot traffic, wheeled traffic and heavy forklift traffic. All floor tiles offer good thermal and acoustic insulation in addition to excellent anti-slip and impact properties.

Please call or email for more information.

Design Tile Collection

The Floor Design Collection is a patented new generation of robust, hidden interlock, loose lay LVT. The Design Collection is available in 8mm and in a modern design with unique colour matching moulding grout edging providing ceramic aesthetics and vinyl performance. Built with anti-fatigue properties, this is one of the most popular floor tiles for retailers.

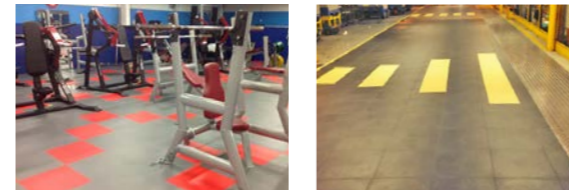

Floor Tile Excel Hidden Join

Similar characteristics to the design tile, this flooring has a hidden bevelled edge and offering a more traditional vinyl tile appearance. Users range from light foot commercial to high industrial wheeled traffic and available in 5mm, 7mm and 9mm.

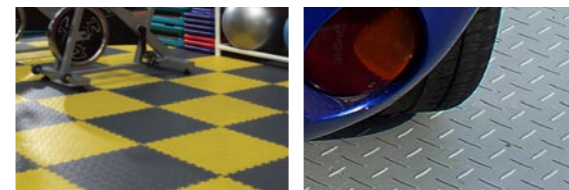

Floor Tile Texture Tile

This is our most popular and successful industrial interlocking textured floor tile. Due to the unique and more robust superior dove tail interlocking joint which is almost invisible when installed, meaning it offers a better flooring solution than epoxy/resin. Available in 5mm for light commercial use and 7mm-9mm for heavy industrial warehousing use.

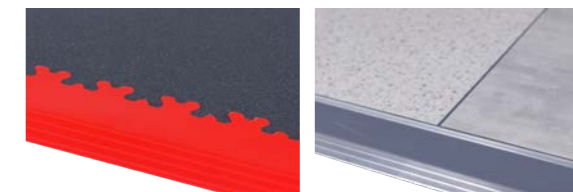

Floor Tile Chequered

The Chequered Plate floor tile is interlocking and has all the same characteristics as our standard textured dove tail tile except it benefits from an interlocking system with matching key ways. When installed renders the interlocking joint virtually invisible resulting in an almost seamless floor.

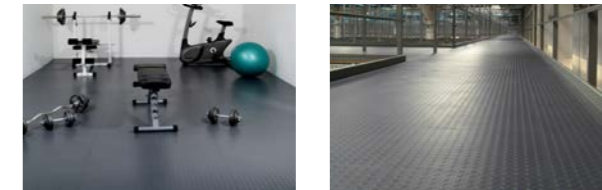

Accessories

The R-Tile range of interlocking floor tiles can also be supplied with edge and corner trims to create a mat area or provide safe and easy access for foot and wheel traffic.

Floor Tile Studded Flooring

This original version of the floor tiling options is still popular with heavy foot traffic areas. It is similar to the floor tile textured floor and manufactured in 5mm and 7mm for light commercial and heavy commercial usage.

Floor Tile Slate

Slate interlocking floor tile has been developed to satisfy the requirements of commercial, residential and domestic applications and suitable for foot traffic only. The unique Slate surface finish with a hidden joint and bevelled interlock has the appearance of traditional ceramic tiles and the benefits of a vinyl product.

BEST FLOORING SOLUTIONS

Shopfitting

Signware Systems offers top brand shelving equipment to many UK retailers. As a proud partner of Innovag Ladenbau (leading shopfitting suppliers in Germany), we develop realistic concepts for shopfitting and market our design in close co-operation with our customers. Our approach is from the initial contact and idea through to realisation and final acceptance of the solution. Concept design takes the form of a comprehensive approach to projects that includes not only the classical shopfitting business with its shelving systems, but also the planning and performance of all the other activities and skills required for the interior construction work in any retail environment.

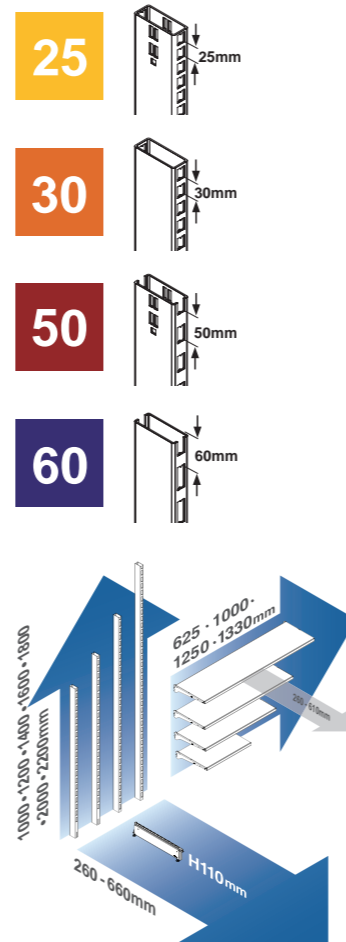

Manufactured in a state-of-the-art facility in Germany, we have four key ranges of modular shelving systems to suit many retailers. The award-winning quality and design of the shelving systems will enhance any retail environment such as Food, Non-Food, Bakery, Cosmetics, Wine & Spirits and many others.

Pure System

Manufactured for universal use which is basic, but mature, well thought-out and built to perfection for several years. With varied component list and sizes, depths and pitch, this system is ideal for many types of retailers.

Key Features:

- Most popular and standard shelving system to suit many retailers
- Ideal for supermarkets and convenience store sector with range of adaptability parts to suit
- Available in standard and bespoke colours to suit

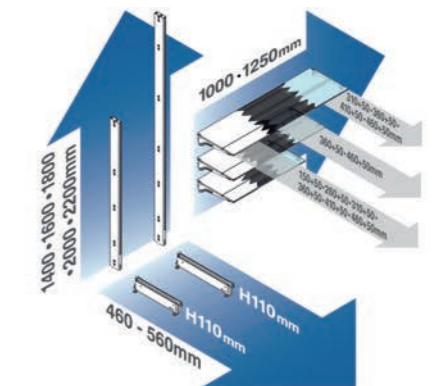

Order online www.signwaresystems.co.uk

Loft System

Offering variable centre and rear panel shelving option for high-quality presentations and is usually found in the wine and cosmetics sector. Complemented by Loft swing and radial shelves and back panels, curved shelving layouts can be realised.

Key Features:

- Creates a dynamic futuristic display unit and offers for LED back panel options
- Ideal for beverage industry wine shops and open product placement displays

Order online www.signwaresystems.co.uk

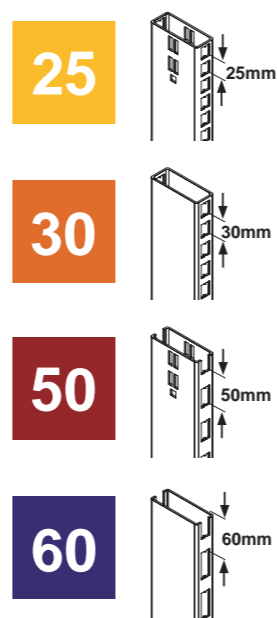

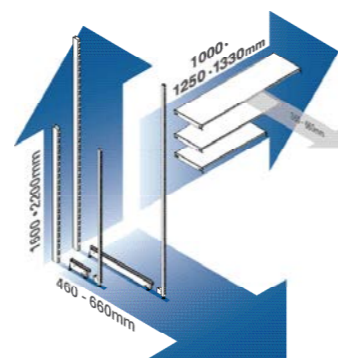

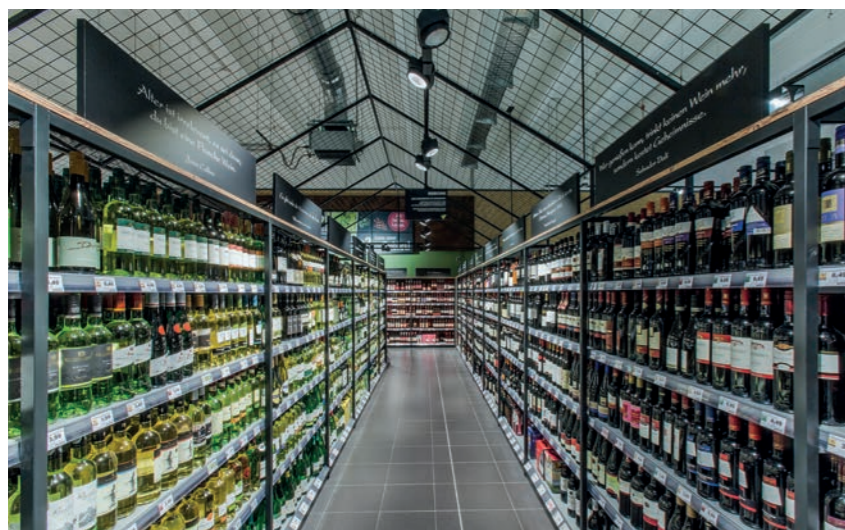

Vego System

Free-standing shelving system units for high load bearing. Ideal and highly functional shelving components for those retailers where heavy load display and product placement is a priority.

Key Features:

- Ideal for beverages, hardware and paint shop industry where products are heavy
- In line with health and safety product merchandising and displays with its front support columns

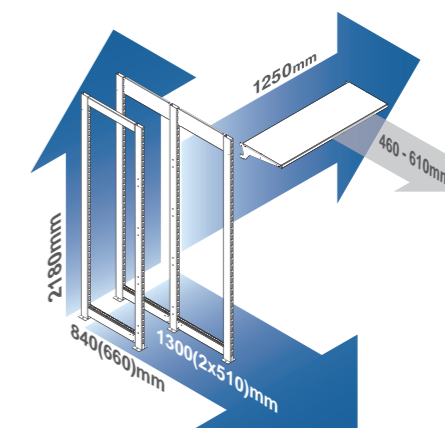

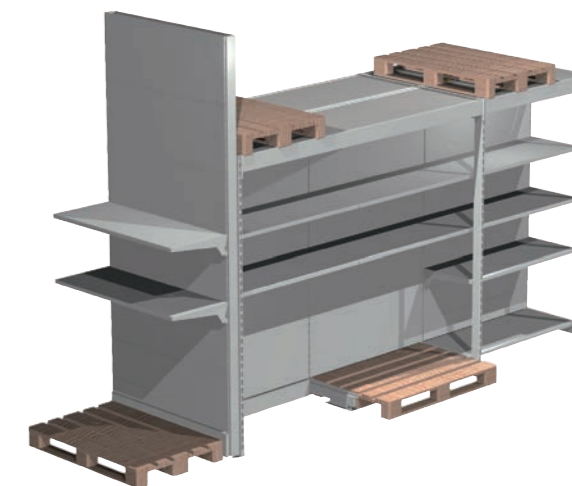

Solid System

Comprises of shelving and gondola designs with a heavy-duty upper cross beam. This shelving or gondola provides room for pallets for merchandising bulk stocks with the 60mm pitch space on the columns.

Key Features:

- Ideal for superstores and white goods industry
- Bulk selling made easy

Please visit our website for more details and variation on all the systems or call for an in-depth shopfitting product information and catalogues.

Advertising Mats

Our award-winning range of advertising mats offers businesses a quick and easy solution to promote their products and services at the point of purchase and entry.

Key Features:

- Easy to change graphics, mobile and easy to relocate
- Cost effective printing on paper
- Advertising at various points

DeskWindo

Designed for point-of-sale, this ultra-slim DeskWindo lies snug on the counter surface to clearly display visuals that can be renewed within seconds.

- Face the counter promotion with cost effective benefits
- Ideal marketing tool for fast moving leisure industry and food chains

Sizes Available

Wire Mesh Basket & Trolleys

Available in various weight configurations, these are great for all types of retailers even those where store aisles are tight (child seat is optional, please enquire). Wire baskets can be made with colour code handles to suit.

Environmental Trolleys and Baskets

This range is made from plastic and manufactured with anti-bacterial property for lifetime of the product. The trolleys are light weight and easy to manoeuvre without compromising on the load bearing.

Shopping Trolleys and Baskets

High quality shopping trolleys and baskets which are modern, attractive and manufactured in the UK and EU. The range of trolleys and retail baskets can be supplied with colours to match to your brand requirements, from chrome finish high quality wire trolleys to a plastic soft finish basket.

Some trolley handles can be logo branded for a more corporate identity and baskets can be colour coded (minimum order applies).

Our 34-litre black shopper is 100% recyclable material for those retailers wishing to do their part.

Other Accessories

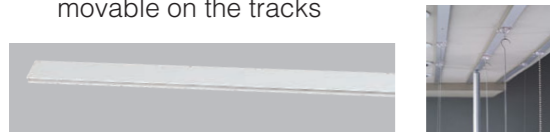

Ceiling Track

Manufactured in aluminium and finished in white 25mm profile. The track is unique product to allow the business to create a suspended ceiling position for hanging and displaying promotions or products and eliminates the need to screw or make permanent fixing points.

Key Features:

- Promote window or in-store anchor points for flexible displays and hanging POS
- Use of multiple tracks can aid in creating a 3D effect of multi layers of promotions
- Easy to move POS or merchandise with the use of our ceiling anchors which are movable on the tracks

Colour Available
White

Product Code: TT48

Cross Beam

Manufactured in aluminium and finished in white 25mm profile. The cross beam can easily be mounted between ceiling tracks to create an anchor point between suspended ceiling tiles.

Key Features:

- Easy to locate on the grid ceilings and easy to remove
- Allows the hanging of items or graphics at mid points as a non-permanent fixture
- Ideal for end of gondola units for product promotions

Product Code: CB24

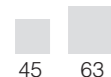

Suction Cups

Our suction cups eliminate the need for blu-tak or adhesive on most glass surfaces. Best aid for glass mounting of graphics and other promotional items for all retailers and are designed for easy application.

Please test all suction cup application prior to use
